

EMBL

The European Learning Laboratory for the Life Sciences (ELLS)
and the team of Tara Oceans invite you to

TARA
OCEANS

ONE Quest thousand GENOMES

a journey to explore the diversity of our planet through:

A hands-on **WORKSHOP** for secondary-school science teachers looking at the world of microorganisms. Laboratory protocols, with the use of interactive multimedial tools, will allow the participants to analyse the genome sequences present in different sample environments.

Saturday, 3 July 2010 (15:00 - 17.30)

Monday, 5 July 2010 (15:00 - 17.30)

Open to 20 participants

Museo Regionale di Scienze Naturali - Via Giolitti, 36 Torino

A **PRESENTATION** of "Tara Oceans" -
an exceptional 3-year marine expedition around the world
to provide answers to climate issues and to deepen
our knowledge on marine biodiversity.

Speaker: Dr Colombar De Vargas, Scientific Coordinator - Tara Oceans
Station Biologique de Roscoff (CNRS-UPMC) - FR

Tuesday, 6 July 2010 at 10:00

Aula Magna - Museo Regionale di Scienze Naturali - Via Giolitti, 36 Torino

For more information and registration visit our website: www.embl.it/ells/esof2010
or find us at the ELLS stand at ESOF: Museo Regionale di Scienze Naturali - Via Giolitti, 36 Torino

ESOF2010 EUROSCIENCE OPEN FORUM
