## 14.00 - 15.30 How to improve STEM CPD in Europe

2nd part – What other features should be developed in STEM CPD programmes in the future?

Objective : In this part we would ask to participants to also contribute with their ideas ; i.e. we have presented our results in the morning now we would ask for further contributions about how to improve effective and impactful STEM CPD delivery

Method :

- We could first ask people to give ideas of subjects to be dealt with in groups > like a sort of large brainstorming, with someone taking note of ideas,
- Then collective choice of a few issues (as many as the number of groups we will make according to total number of people) > these two steps would last 30 mn,
- Then 1-hour group discussion with the objective of giving some recommendations on the addressed issue

## 15.30 - 16.00 Coffee break

## 16.00 - 16.30 Feedback session

Each groupe would name someone to give a short feedback of the group's conclusion in plenary

## 16.30 - 17.00 Conclusions

2 or 3 persons from the partnership could gather key ideas all through the day and restate them in the end as a synthesis of the day.

Then a final word to thank participants could be delivered by Luma Helsinki
